

MK Together

Partnership Handbook 2020/21

Special arrangements in light of the disruption caused by COVID-19

Introduction

Strong partnerships are at the heart of the way we do things in Milton Keynes. We have long since realised that we will have greater impact on the lives of local people if we work closely together. Our strengthened partnership arrangements for safeguarding, community safety and health and wellbeing, which were introduced under the MK Together banner in 2019, have enabled us to make further progress. How do we know? At our last Ofsted inspection (Joint Targeted Area Inspection, published December 2019) inspectors reported:

Key strengths

There is clear drive and determination at a strategic level in Milton Keynes to improve outcomes for children. Effective governance structures and agency attendance at a wide range of boards provide evidence of a collective commitment to working in partnership in relation to safeguarding, and to meeting the needs of children with poor emotional and mental health.

Now more than ever, as we respond to the impact of the Covid-19 pandemic, we will need to ensure that local safeguarding processes are effective to protect the most vulnerable people in our community.

Our guiding principles

Our partnership arrangements have been underpinned by the following principles:

- **Improves outcomes for residents** – our partnership working should have a direct impact on the lives of the people living in Milton Keynes
- **Maximises value for the Milton Keynes pound** – streamlined partnerships which minimise duplication and help partners work together efficiently
- **Flexible and agile** – partnerships which adapt as needed in order to keep up with the ever-changing world
- **Facilitates system wide working** – a space for open and honest conversations, further enhancing relationships across the system.
- **Safeguarding as a golden thread** – it is front and central in everything we do.

Being Flexible and agile

The COVID-19 pandemic has not just impacted on our community, but also on partner organisations and continues to do so. Now more than ever, safeguarding the most vulnerable members of our community is of the utmost importance. COVID-19 has changed the way we work together. The outlook is for disruption to the way we have done things, and what we are doing, for perhaps twelve months, and maybe for longer. During this time social distancing guidance will need to be taken into account, as we increase our use of technology to connect with each other to become as effective and efficient as possible.

This handbook has been produced to set out how the MK Together arrangements will operate for the period April 2020 to March 2021. These will be reviewed by the partnership in September 2020 and again January 2021.

Our partnership arrangements will:

- Have in place robust performance and quality monitoring measures with regard to the implementation of our agreed strategic priorities.
- Ensure that equality and diversity needs and safeguarding are incorporated in planning and service delivery.
- Be informed by innovation and sustainable best practice across the system which is then incorporated into commissioning plans.
- Have independent scrutiny at their core to provide assurance and hold a lens up to the system.
- Work with the support and advice of stakeholders and others, ensuring the views of the public are taken into account.
- Have suitable information sharing protocols in place signed by all responsible authorities.

Independent scrutiny arrangements

The whole partnership will continue to benefit from an independent safeguarding scrutineer who will act as a critical friend for decision making across the system. The safeguarding scrutineer observes and challenges the work of the partnership, offering oversight of the effectiveness of our partnership arrangements. The safeguarding scrutineer attends the Health and Wellbeing Board and the Community Safety Partnership, as well the MK Together Management Board, although this will be over video conferencing.
